

Committee Briefs

New Subcommittee. The Senate Labor and Public Welfare Committee has established a Special Subcommittee on International Health, Education and Labor Programs. The chairman is Senator Ralph Yarborough (D Texas). Other members are Wayne Morse (D Ore), Claiborne Pell (D R I), Jacob Javits (R, NY) and Winston Prouty (R, Vt). Yarborough on 20 Feb announced that the committee's first hearings would be on his bill S 1779 to establish a quasi-governmental corporation to finance openly activities in the fields of health, education, labor and related areas. The bill was intended to provide a source of funds to replace the money which until 1967 was provided secretly by the Central Intelligence Agency and other channels.
